PRODUCT DESCRIPTION

Easily raise or lower your work surface with LogiQuip's fully electric, adjustable Workstations. With the press of a button, the work surface can be adjusted from 34"-52.5", providing an ergonomic Workstation that allows the user to sit or stand while working. Ideal for Sterile Processing, these prep and pack Workstations feature a powder-coated steel frame, Stainless Steel work surface, and two slotted uprights and top frame that accommodate several optional accessories making this Workstation fully customizable.
