

LogiQuip® Storage Carts,
featuring the LogiCell® System

Efficient & Effective

With increased concern for security and infection control, enclosed storage is the only choice in many hospital applications. Coupled with goals to be responsive and flexible, mobile storage is the norm.

LogiQuip[®] Storage Carts, featuring the LogiCell[®] System, address these corporate-level concerns, and include features to meet the needs of those at the caregiver level. While many enclosed storage carts look alike, it is in the details that separate LogiQuip[®] from others, supporting the way you work, and providing value in the product.

The LogiCell[®] System empowers clinicians to do their jobs efficiently and effectively, thereby maximize available time at the point of care.

The LogiCell[®] System is a combination of the interior configuration of the cart and the selection of accessories employed.

- LogiQuip[®] carts hold more accessories
- Accessories can be slanted for easy visual and physical access
- Accessories extend to enhances visual and physical access

If your goals are,

- Space efficiency
- Reduced waste
- Productivity

We have the product to help you succeed.

With so many choices, your LogiQuip[®] Storage Expert can help you select the optimum product for your specific application.

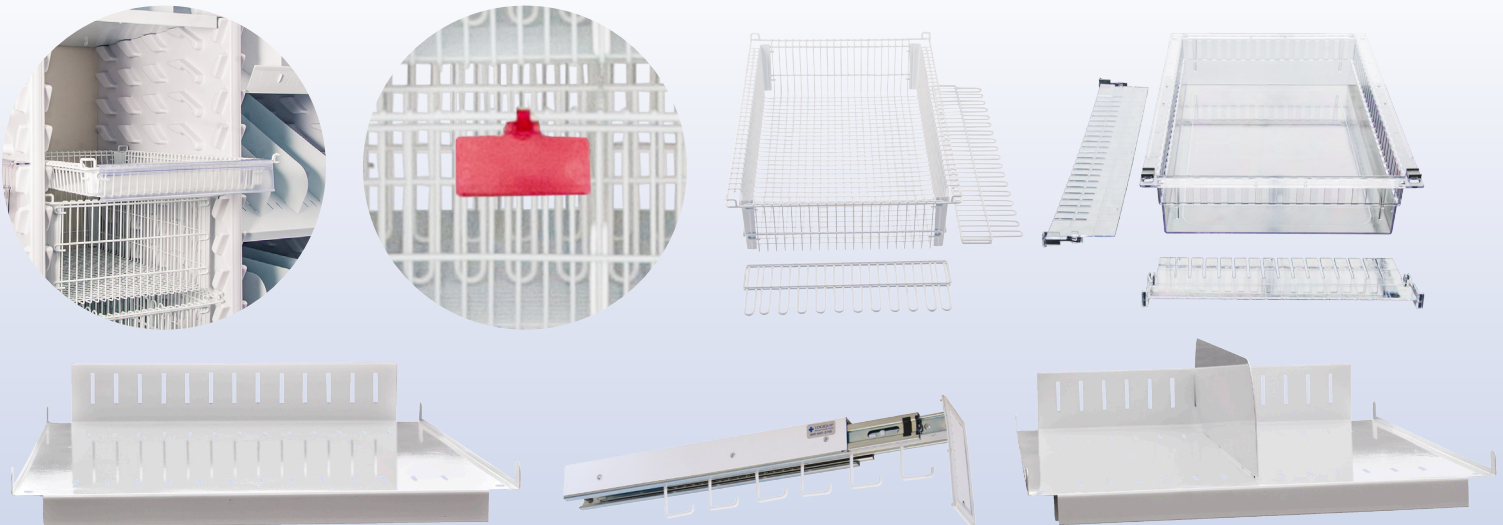

Configurations

Supply carts with the LogiCell® system are available in short, medium and tall heights, as well as single, double, and triple widths to meet your unique requirements. Various internal configurations help keep you organized and efficient. A choice of tambour or glass hinged doors provide the protection you desire.

Accessories

LogiCell® accessories add significant value to your carts. Whether clear drawers, durable wire baskets, label holders or metal shelves with dividers, you can arrange them to suit your application.

LogiQuip® has been providing healthcare storage solutions to hospitals across North America Since 1992. Building on their combined 90 years of experience, our founders built a knowledgeable and experienced team who understand that each hospital's inventory, supply, and storage requirements are similar in theory, yet diverse in practice and application. Our sole focus is hospital storage and distribution systems and our mission is to provide our customers with products and ROI justified solutions tailored to meet their specific needs. Whether the prescribed solution is a single cart or a complete high-density storage solution, LogiQuip's expertise and extensive product line complement any supply chain solution.
