

Robotic INSTRUMENT & ACCESSORY STORAGE

LOGICELL® STORAGE CARTS

Robotic Surgery provides many benefits to the patient including less invasive procedures, shorter hospital stays, and an overall shorter recovery time. However, these benefits come at a cost. Surgical robots, instruments, and accessories are expensive, with many instruments and accessories having limited lifespans. Protect your patients and your investment with **LogiCell Storage Carts**. With a variety of sizes, security options, and accessories, **LogiCell** can adapt to your needs as supplies, quantities, and processes change.

LOGICELL WALL PANELS

LogiCell Carts provide a unique **Cell Panel** along the inside walls of the carts that significantly increase storage capacity. **Bins, Wire Baskets, and Shelves** can be placed straight in or at an angle making the **LogiCell System** incredible flexible and efficient.

LOGICELL ACCESSORIES

LogiCell Carts are fully customizable. In addition to **Bins, Wire Baskets, and Shelves**, additional **Accessories** such as **Catheter Slides, Stainless Steel Drawers, and Lockable Drawers** can also be added to your **LogiCell Cart** to meet your specific needs.

SECURITY OPTIONS

LogiCell Carts and **Storage Cabinets** are available with **Tambour or Tempered Glass Hinged Doors**. Choose from **Key Lock or eLock (Electronic Keyless Lock)** for controlled access supplies. **RFID** access is also available for hands-free access (custom orders).
