LogiQuip® Selected to Exhibit Intelli-Flip™ System at Vizient Innovative Technology Exchange

Galesburg, MI, June 29, 2022 — LogiQuip has been selected to exhibit our Intelli-Flip Inventory Management System at the Vizient Innovative Technology Exchange. [Vizient, Inc](#), the nation's largest member-driven health care performance improvement company, will hold the Exchange on October 17 in Dallas.

The annual Innovative Technology Exchange offers selected suppliers the unique opportunity to demonstrate their technologies to supply chain and clinical leaders from Vizient's member hospitals and subject matter experts who serve on their supply councils. Each technology will showcase how it improves clinical outcomes, enhances safety or drives incremental improvements to health care delivery or business models.

LogiQuip's patented Intelli-Flip System is a simple, intuitive solution that takes inventory management to a lean, system-driven process that is managed through a personalized dashboard. With increased labor costs and shortages, Intelli-Flip can help to increase productivity and reduce labor costs for smart inventory management that help ensure Healthcare Professionals have the supplies they need when they need them.

"We are incredibly proud to be given the opportunity to show Intelli-Flip at the Vizient Innovative Technology Exchange" AJ Willit, CEO/President of LogiQuip said. "Intelli-Flip was designed to help healthcare providers spend less time searching for and managing supplies and more time caring for their patients. We are excited to demonstrate the benefits of Intelli-Flip System this October."

"Suppliers apply to attend the Exchange hoping their product will be awarded an Innovative Technology contract, which signals health care providers of their product's unique qualities," "said Kelly Flaharty, director of contract process, Vizient. "The selection process for suppliers who exhibit at the Exchange is rigorous, and this technology has earned its coveted invitation to the event."

The annual Innovative Technology Exchange is part of Vizient's [Innovative Technology Program](#) that includes product review of supplier-submitted technologies by member-led councils and task forces. Since 2003, Vizient has reviewed over 1,600 product submissions as part of its Innovative Technology Program.
