

LogiQuip

SERVICES

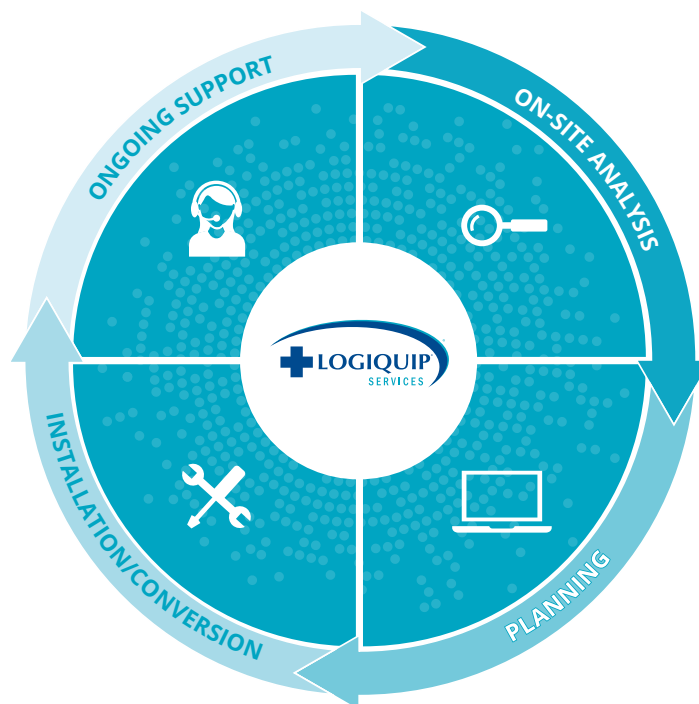

LET US DO THE HEAVY LIFTING

WITH LABOR SHORTAGES AND THE EVER-INCREASING DEMAND TO DO MORE WITH LESS, the **LogiQuip Services Team** can help to decrease that burden with turnkey solutions to help ensure you have the supplies you need when you need them.

PROJECT MANAGEMENT

From our initial meeting with you through implementation, a **LogiQuip Services Team** member will be assigned as your Project Manager, working with you every step of the way. Your Project Manager will serve as your single point of contact during the project life cycle. Together we will develop and implement project milestones until the work is complete. Contact your Sales Representative or call **(800) 665-3760** for more information.

ON-SITE ANALYSIS

ON-SITE ANALYSIS

Working with your LogiQuip Representative, an on-site analysis will be done to ensure that the Project Manager has a complete understanding of your current environment. During our on-site analysis we will review your current state, identify gaps, and align on the goals of the project.

- **Review & Document Current State** – Working with your LogiQuip Representative, we will conduct stakeholder interviews, talk with staff, and review your current processes from end to end.
- **Identify Gaps & Goals** – Using the data and information gathered from the Review process, we will identify and document the gaps and goals that need to be achieved to be successful.

PLANNING

PLANNING

Using a mix of innovative products, lean principles, tried and true methods, and out-of-the-box thinking, LogiQuip will provide a holistic plan with turnkey solutions to minimize downtime while decreasing your storage footprint and increasing PAR levels

- **LogiQuip Design Center** – Virtually design your storage space to spec with LogiQuip Design Center. Your LogiQuip Representative will measure, design, and draw your space to help optimize the space and workflow.
- **Cart Planning** – Using your PAR lists, inventory levels, supply packaging size, and color/categories, we will configure carts electronically with LogiQuip’s proprietary cart planning tool to reduce installation time.
- **Inventory Optimization** – Reduce stockouts, overstocking, and expired products with LogiQuip Services. Leveraging Lean Principles and Supply Usage Data, the LogiQuip Services Team will review and analyze current supplies, and usage to provide recommendations to optimize your storage space and recommend inventory levels.
- **Product Categorization (Bin Locating)** – Once your new LogiQuip Shelving is in place, LogiQuip will color code and label each bin location, helping to create a streamlined workflow. In addition, we will catalog the position of the supplies relative to the position on the rack.
- **Color Coding** – LogiQuip will review and make recommendations on color coding categories of supplies and place color coded label holders with labeling on your racks making it easier to locate what you are looking for.
- **Common Naming** – LogiQuip Services Team will make naming convention recommendations, and label supplies with common names allowing clinicians to identify supplies quickly and easily.

INSTALLATION & CONVERSION

INSTALLATION & CONVERSION

LogiQuip is dedicated to providing on-time delivery, efficient installation, and supply conversion to minimize down time and time on site to get you up and running as quickly as possible.

- **Factory Assembly** – Product will be shipped and pre-assembled to specification so that products arrive on-site, ready to use. This eliminates trash from the job site and reduces downtime due to installation by up to two-thirds.
- **PAR Form Creation** – Verifying Items in Room match the PAR Sheets or Create New PAR Sheets based on the rooms.
- **Delivery & Installation** – Our Services Team will work with you to deliver and place products to the right area of your facility and install them to ensure that everything is working as intended.
- **Supply Stocking** – Placing appropriate PAR Levels and SKUs on LogiQuip Racks or racks provided by others.
- **Supply Labeling** – Once your new LogiQuip Shelving is in place, LogiQuip will place the appropriate supply chain/ERP label on the rack to make locating supplies easy.

ONGOING SUPPORT

With the project complete, we want to help you sustain the changes that have been made. With Annual Inventory Reviews, Preventative Maintenance Plans, and Field Service for in warranty and out of warranty repairs, we have you covered to keep things running smoothly.

- **Annual PAR Level Review** – Once a year, LogiQuip will come to your facility to review and optimize inventory to help keep things running smoothly.
- **Preventative Maintenance** – LogiQuip will perform routine, preventative maintenance such as checking locks, batteries, pumps, and replacing filters. Preventative maintenance plans will vary by product.
- **Field Service** – LogiQuip’s Field Services Team will complete in warranty and out of warranty repairs to help minimize downtime and keep things running smoothly.
