CABINETS

WHY LOGIQUIP®?

Healthcare exclusive since 1992, LogiQuip's **Inventory Management Solutions** are designed for Healthcare Professionals looking for a better way to manage supply chain tasks. With **Expert Advice**, **Innovative Solutions**, and **360° Service** that doesn't stop after the sale, LogiQuip's sole purpose is to ensure Healthcare Professionals have the supplies they need when they need them. Partnering with you to design and implement the right solutions, we give you time back to focus on what's important, Patient Care.

EXPERT ADVICE

With an in-depth understanding of the industry and a focus on **Infection Control** and **Lean Processes**, we partner with you to ensure we design the right solutions for you.

INNOVATIVE SOLUTIONS

Designed with an eye on the horizon, LogiQuip has **Innovative Solutions** that evolve with your facility. Our flexible and efficient options help to ensure you have the supplies you need when you need them.

360° SERVICE

LogiQuip's experienced **Sales Representatives** and **Award-Winning Customer Support Team** provide unparalleled service before, during, and after the sale. LogiQuip is committed to fulfilling customer orders as quickly as possible which is why we have hundreds of products in stock, ready to ship every day. Please contact LogiQuip's Customer Experience Team or your Sales Representative to learn more.

WITH LABOR SHORTAGES AND THE EVER-INCREASING DEMAND TO DO MORE WITH LESS, the **LogiQuip Services Team** can help to decrease that burden with turnkey solutions to help ensure you have the supplies you need when you need them.

PROJECT MANAGEMENT

From our initial meeting with you through implementation, a LogiQuip **Services Team Member** will be assigned as your **Project Manager**, working with you every step of the way. Your **Project Manager** will serve as your single point of contact during the project life cycle. Together we will develop and implement project milestones until the work is complete. Contact your **Sales Representative** or call **(800) 665-3760** for more information.

ON-SITE ANALYSIS

Working with your LogiQuip **Representative**, an on-site analysis will be done to ensure that the **Project Manager** has a complete understanding of your current environment. During our on-site analysis we will review your current state, identify gaps, and align on the goals of the project.

PLANNING

Using a mix of innovative products, Lean principles, tried and true methods, and out of the box thinking, LogiQuip will provide a holistic plan with turnkey solutions to minimize downtime while decreasing your storage footprint and increasing PAR levels.

INSTALLATION & CONVERSION

LogiQuip is dedicated to providing on-time delivery, efficient installation, and supply conversion to minimize down time and time on site to get you up and running as quickly as possible.

ONGOING SUPPORT

With the project complete, we want to help you sustain the changes that have been made. With **Annual Inventory Reviews**, **Preventative Maintenance Plans**, and **Field Service** for in warranty and out of warranty repairs, we have you covered to keep things running smoothly.

ANSI/AAMI ST91: 2021 COMPLIANT

LogiQuip **Dri-Stor Scope Cabinets** are compliant with the latest **ANSI/AAMI ST91: 2021 Guidelines**, emphasizing the importance of drying the internal channels of flexible and semi-rigid endoscopes. LogiQuip **Channel Purge Dri-Stor Scope Cabinets** forces **HEPA Filtered Air** through **Tubing Channels** connected to individual **Scopes** for 30-minute cycles (30 minutes on/20 minutes off) to aid in thorough drying inside and out.

“ Methods that employ active drying of Endoscopes with filtered air are the preferred means of drying the internal channels of Endoscopes after processing. Storage Cabinets are used to secure and, in some cases, circulate air through the processed Endoscopes. ”

ANSI/AAMI ST91: 2021 Flexible and semi-rigid Endoscope processing in health care facilities, Section 11.1

LOGIQUIP® DRI-STOR FEATURES & BENEFITS

The cost of infection from improperly cleaned and stored endoscopes can be significant. For this reason, LogiQuip developed the **Dri-Stor Line of Scope and Probe Drying Cabinets**. These AORN, SGNA, ANSI, and AAMI Guideline-Compliant **Endoscope Cabinets** start with **304 Grade Stainless Steel** for easy to clean durability. **HEPA Filtered Air** circulates through each **Endoscope** and **Cabinet** to aid in complete drying inside and out. Add **EndoTrack** to control scope access and hang time to help ensure compliance.

304 STAINLESS STEEL CONSTRUCTION

All cabinets start with **304 Stainless Steel** body and **Removable Drip Tray** for easy cleanability, long-lasting durability, and better prevention of microbial growth. **All-welded Joints** and **Construction** free of fasteners, screws, and rivets provide smooth surfaces throughout.

HOLDS UP TO 20 SCOPES

Each **Cabinet** can hold up to **20 Scopes** and can accommodate **Large** and **Small Diameter Scopes** as well as **TEE Probes** and **Ultrasound Probes**.

HEPA FILTERED AIR

Our **HEPA Power Vent** and **HEPA Power Vent with Channel Purge** models use **HEPA Filters** that remove **99.97%** of particulates **0.3 micron** in size to ensure that the air moving through the **Cabinet** and each **Scope** is clean.

COATED SCOPE HANGERS

Durable, easy-to-clean **Scope Hangers** provide cushioned storage which allows you to hang **Scopes** vertically to help promote drying. Free of sharp edges, each **Scope Hanger** is built with a steel core and coated in resilient, non-porous plastic.

LOGIQUIP® DRI-STOR FEATURES & BENEFITS

CHANNEL PURGE OPTIONS

HEPA Power Vent with Channel Purge technology provides thorough **Endoscope** drying, inside and out. Forced filtered air passes through tubing channels assigned to individual scopes for 30-minute cycles. Airflow is discontinued for 20 minutes before a new cycle begins. The filtered air quality is 0.3 micron at 99.97% efficiency. **Cabinets** designed for 11 or more **Endoscopes** are equipped with two (2) **Channel Purge Pumps**.

ENDOTRACK SYSTEM

EndoTrack allows you to easily manage and track **Endoscope** equipment from an intuitive interface. Utilizing **Dual Scanner Technology**, the **EndoTrack System** provides controlled access and security to your **Cabinet** as well as the ability to track the hang time of each **Scope**.

SIDE COMPARTMENT ACCESS

In addition to our **Top Compartment Access** models, we also have **Side Compartment Access** models for quick access to interior components for maintenance and expansion.

MODEL # 43790SCHG-16PS

MAINTENANCE PLANS

LogiQuip is committed to customer satisfaction throughout the life of your product. With this in mind, we are pleased to offer **Maintenance Plans** to keep your new LogiQuip **Dri-Stor Drying Cabinet** running like new. These hassle-free plans take the maintenance of your **Dri-Stor Drying Cabinets** off of your to-do list. See page 14 for **Maintenance Plans**.

LIMITED 5-YEAR WARRANTY

LogiQuip products are covered by a **Limited 5-Year Warranty** from date of receipt against defect in materials or workmanship under normal use and service, excluding **Electronic Components, Cart Covers, Custom Products, and LogiCell® Tambour Doors, Label Holders, and Casters**. During this period, LogiQuip will, in its sole discretion, repair defects in materials or workmanship that existed when the product was received or replace the product. Visit [LogiQuip.com/Warranty](https://www.logiquip.com/Warranty) for more details.

LOGIQUIP® DRI-STOR HEPA POWER VENT

HEPA POWER VENT

Dri-Stor Scope and Probe Cabinets equipped with a HEPA Power Vent circulates HEPA Filtered Air throughout the Cabinet for infection-control conscious drying and storage. The resulting pressurized environment creates a barrier, preventing non-filtered air from entering.
