WHY LOGIQUIP®?

Healthcare exclusive since 1992, LogiQuip's **Inventory Management Solutions** are designed for Healthcare Professionals looking for a better way to manage supply chain tasks. With **Expert Advice**, **Innovative Solutions**, and **360° Service** that doesn't stop after the sale, LogiQuip's sole purpose is to ensure Healthcare Professionals have the supplies they need when they need them. Partnering with you to design and implement the right solutions, we give you time back to focus on what's important, Patient Care.

EXPERT ADVICE

With an in-depth understanding of the industry and a focus on **Infection Control** and **Lean Processes**, we partner with you to ensure we design the right solutions for you.

INNOVATIVE SOLUTIONS

Designed with an eye on the horizon, LogiQuip has **Innovative Solutions** that evolve with your facility. Our flexible and efficient options help to ensure you have the supplies you need when you need them.

360° SERVICE

LogiQuip's experienced **Sales Representatives** and **Award-Winning Customer Support Team** provide unparalleled service before, during, and after the sale.

LogiQuip is committed to fulfilling customer orders as quickly as possible which is why we have hundreds of products in stock, ready to ship every day. Please contact LogiQuip's Customer Experience Team or your Sales Representative to learn more.

WITH LABOR SHORTAGES AND THE EVER-INCREASING DEMAND TO DO MORE WITH LESS, the **LogiQuip Services Team** can help to decrease that burden with turnkey solutions to help ensure you have the supplies you need when you need them.

PROJECT MANAGEMENT

From our initial meeting with you through implementation, a LogiQuip **Services Team Member** will be assigned as your **Project Manager**, working with you every step of the way. Your **Project Manager** will serve as your single point of contact during the project life cycle. Together we will develop and implement project milestones until the work is complete. Contact your **Sales Representative** or call **(800) 665-3760** for more information.

ON-SITE ANALYSIS

Working with your LogiQuip **Representative**, an on-site analysis will be done to ensure that the **Project Manager** has a complete understanding of your current environment. During our on-site analysis we will review your current state, identify gaps, and align on the goals of the project.

PLANNING

Using a mix of innovative products, Lean principles, tried and true methods, and out of the box thinking, LogiQuip will provide a holistic plan with turnkey solutions to minimize downtime while decreasing your storage footprint and increasing PAR levels.

INSTALLATION & CONVERSION

LogiQuip is dedicated to providing on-time delivery, efficient installation, and supply conversion to minimize down time and time on site to get you up and running as quickly as possible.

ONGOING SUPPORT

With the project complete, we want to help you sustain the changes that have been made. With **Annual Inventory Reviews**, **Preventative Maintenance Plans**, and **Field Service** for in warranty and out of warranty repairs, we have you covered to keep things running smoothly.

LOGIQUIP® LQS WIRE SHELVING

LogiQuip's **Standard (LQS)** line of **Wire Shelving** is anything but standard. With a wide variety of configurations available to meet any of your organizational needs, our **LQS Wire Shelving Line** is flexible enough to be used virtually anywhere within your facility for easy and efficient storage.

Mobile Cart

Enclosed Cart

Dolly Cart

LQS Basket Cart

CARBON STEEL CORE

All of LogiQuip's **Wire Shelving** and **Posts** start with a **Carbon Steel Core**, helping to ensure a strong, durable base for all of your storage needs.

DOUBLE CHROME PLATING

Each **Carbon Steel Shelf** and **Post** is **Double Chrome Plated** providing added strength. **Double Chrome Plating** helps to eliminate discoloration and peeling.

STRONG WIRE SHELVING

LQS Flat Wire Shelving comes in 36", 42", 48", 60", and 72" with each **Shelf** holding between 600-800 pounds.

WATERFALL EDGE SHELVING KITS

The LogiQuip® **Waterfall Edge Shelving** features a smooth, rounded edge along the width of the shelf, replacing the traditional raised edge that can damage items as they are moved in and out of storage. These strong and durable shelves come in a variety of sizes, are available in six (6) kits. All Kit Models are mobile, have four (4) casters; two (2) swivel/brake, two (2) swivel with four (4) donut bumpers, and a **Shelf Cover**.

UPGRADE WITH INTELLI-FLIP® SYSTEM

Our patented **Intelli-Flip System** combined with our **Kanban Divides with Adaptors**, **LQS Shelves** and **Baskets** provides up-to-date inventory management, helping to reduce supply chain costs and stockouts.

ACCESSORIES

Choose from a variety of **LQS Wire Shelving Accessories**. Visit LogiQuip.com/wire-shelving for more details or request a **LQS Wire Shelving** catalog.

LOGIQUIP® FINE MESH BASKET SHELVING

LogiQuip **ParWire®**, **ParWall®** Freestanding, **ParWall Louvered Panel**, and **ParWall LeanWall Systems** with **Fine Mesh Basket Shelf** design help to increase storage capacity, and can hold even your smallest items. Pair our **Fine Mesh Basket Shelving** with our patented **Kanban Dividers** and **Intelli-Flip® System** to create a Lean, system-driven process that helps reduce supply chain costs and eliminate stockouts.

FINE MESH BASKET DESIGN

With the traditional plastic **Two-Bin System**, dust and debris are trapped in the plastic **Bins**, and require regular cleaning to maintain. Our **Fine Mesh Basket** design allows for dust and debris to fall through the shelf eliminating this step for a virtually maintenance-free solution.

LEAN INVENTORY MANAGEMENT

Pair our **ParWire** and **ParWall Fine Mesh Basket Shelving** with **Lane Dividers** and our patented **Kanban Dividers** to create Lean inventory management that helps reduce supply chain costs and eliminate stockouts.

STORE UP TO 40%* MORE

Our **ParWire** and **ParWall Fine Mesh Basket Shelves**, **Dividers**, and patented **Kanban Dividers** help to increase storage capacity by up to 40% by eliminating the need for the traditional plastic **Two-Bin System**. This system efficiently uses every inch of available space and allows for storage of even your smallest items.

PATENTED INTELLI-FLIP SYSTEM

Upgrade to LogiQuip's patented **Intelli-Flip System** which provides intelligent, up-to-date inventory management designed to increase productivity while reducing labor costs.

LQS FLAT SHELF LOADED WITH TRADITIONAL PLASTIC TWO-BIN SYSTEM

PARWIRE FINE MESH BASKET WITH DIVIDERS & KANBAN DIVIDERS

*Up to 40% space savings when comparing the 2436CH LQS Flat Wire Shelf with plastic **Two-Bin System** to PRRG2436 ParWire Basket Shelf with **Fine Mesh Dividers** (see images above).

LOGIQUIP® FINE MESH BASKET SHELVEING

While both **ParWire** and **ParWall Baskets Shelves** allow for increased storage capacity and reduce maintenance, the real difference comes with how these **Fine Mesh Basket Shelves** are mounted. From **Freestanding** to **Wall Mounted** executions, we have the right solution.

PARWIRE BASKET SHELVEING OPTIONS

The LogiQuip **ParWire System** with our **Fine Mesh Basket** design helps to increase storage capacity by up to 40%. These strong and durable **Shelves** come in a variety of sizes and are compatible with LogiQuip's 1-inch round **Posts** for easy customization. This design is available in **Standard, Slanted, or Glide** options.

PARWALL ON LOUVERED PANELS

ParWall on Louvered Panels is a traditional way of mounting **Baskets** to the wall. This approach keeps products off the floor, allowing utilization of various **Accessories**. Using **ParWall Fine Mesh Baskets Shelves on Louvered Panels** increases storage capacity over plastic **Bins** by increasing the depth, removing wasted space between **Bins**, and maximizing the lane capacity.

PARWALL ON FREESTANDING FRAMES

LogiQuip's **ParWall Freestanding Frame Mounted System** is designed with a heavy-duty steel frame that allows maximum storage capacity. **Slots** run down the frame **Post** in 1" increments giving users the ability to arrange 12" or 18" deep **Baskets Shelves** where needed. We offer a selection of pre-configured **Kits** or you can custom build your own.

LEAN WALL SYSTEM

This system is more flexible than **Louvered Panels** since it allows you to plan around obstructions on the wall such as fire extinguishers outlets, vents, and more. You can easily add sections to a starter frame for longer wall storage. The **Lean Wall System** can be 12" or 18" deep, comfortably accommodate up to seven (7) **Fine Mesh Baskets** vertically (18", 36" and 48" wide). It can accept **Slanted Baskets** for easier access. 19" high **Louvered Panels** are available for **Storage Bins, Tilt Bins, Pegs, and Spikes**.

ParWall Freestanding Systems are available as **Single-Sided** or **Double-Sided**

Lean Wall Systems are ideal for working around obstructions on a wall such as light switches, vents, and more.

Louvered Panel Systems, our most traditional shelving line, also accept blue **Bins**.

ParWire Systems are on 1" posts and can be paired with our **LQS Flat Wire, Waterfall Edge, and Basket Shelving**.

LOGIQUIP® MEDICAL STORAGE CARTS

Create a custom, high-density **Storage Cart** that can be used virtually anywhere within your facility. LogiQuip's secure **Medical Storage Carts (MSC)** allow you to custom-build your ideal storage solution from the outside in. With multiple sizes, security, and shelving options available, you can build the right product to meet your needs. For additional details visit LogiQuip.com/MedicalStorageCarts or contact your Representative.

FULLY CUSTOMIZABLE

Because every facility is different, LogiQuip's **Medical Storage Carts** are fully customizable, available in seven (7) sizes, and have up to three security options. Add our **LQS Flat Wire** and **ParWire® Basket Shelving**, **Dividers**, and **Kanban Flippers** for a tailored and efficient storage solution.

PARWIRE BASKET SHELVING

Increase the capacity of your LogiQuip **Medical Storage Cart** by up to 40%* with our **ParWire Basket Shelving**, **Dividers**, and **Kanban Flippers**. These chrome-plated **Basket Shelves** come in a variety of sizes. Compatible with LogiQuip's 1" round **Posts**, you can use a mix of **ParWire Basket Shelving** and **LQS Wire Shelving** for easy customization.

LQS FLAT WIRE SHELVING

Add LogiQuip's **LQS Flat Wire Shelving** to these **Medical Storage Carts** for an efficient storage option. In addition to saving space, our **LQS Wire Shelving** and **Posts** begin with a carbon steel core that is double chrome-plated for strength and durability that lasts.

SECURITY OPTIONS

To maintain secure supplies and patient safety, our **Medical Storage Carts** provide a variety of lock options. Whether you choose **Key Lock**, **eLock**, or **Proximity Lock** you can be sure that stored items will be secure.

CABINET OPTIONS

LogiQuip **Medical Storage Cart Cabinets** are available in **Laminate**, **Painted Steel**, or **Stainless Steel**.

LIMITED 5-YEAR WARRANTY

LogiQuip products are covered by a **Limited 5-Year Warranty** from date of receipt against defect in materials or workmanship under normal use and service, excluding **Electronic Components**, **Cart Covers**, **Custom Products**, **LogiCell Tambour Doors**, **Label Holders**, and **Casters**. During this period, LogiQuip will, in its sole discretion, repair defects in materials or workmanship that existed when the product was received or replace the product. Visit LogiQuip.com/Warranty for more details.

*Up to 40% space savings when comparing the 2436CH LQS Flat Shelf with two-bin system to PRRG2436 ParWire Basket Shelf with Fine Mesh Dividers.

MODEL # MSC2448HGKL

MODEL # MSC2448HGKPS

MODEL # MSC2448HGES

LOGIQUIP® PARSTOR® STORAGE SYSTEMS

LogiQuip's **ParStor Series** is ideal for use in **Sterile Processing Departments (SPD)** and **Operating Rooms (OR)** to store surgical instruments, peel pouches, and sutures. Our highest-density storage system, **ParStor** is designed to be used where space is at a premium. The height is 80" to the top of the Frame and 82" if you include the lip of the top **Wire Shelf**.

MAXIMIZE STORAGE DENSITY

Built for small storage areas, our **ParStor Series** utilizes every inch of vertical storage space to maximize storage capacity. The tall, **All-Welded Frames** are outfitted with **Chrome Slides** that can be mounted **Straight** or at an **Angle**. **ParStor Frames** have **Notches** to allow **Slides** and **Accessories** to be mounted at 1" intervals.

WHAT'S THE DIFFERENCE?

While all **ParStor Storage Systems** give you our highest density storage in small spaces, there are some differences between **ParStor** and **ParCarts** that you need to consider when deciding which solution is right for you. See the chart below to compare all **ParStor** options.

ParStor Movable Shelving units are the right solution when your supplies can remain in one location. These units can be moved for cleaning.

ParStor ParCarts are the perfect solution when you need to transport supplies department-to-department. Built on a **Dolly Base**, this sturdy option is built to move.

Building on our **ParStor ParCarts**, this enclosed option is perfect for when supplies may be exposed to contaminants during transport.

FLEXIBLE CONFIGURATIONS

LogiQuip's **ParStor Line** is available in multiple configurations (**Stationary** and **Movable**) to accommodate high-density storage in any situation. **ParCarts** provide **Mobile** options when you need to move supplies from location to location. **ParCarts** come in **Open** or **Enclosed**, **Single-** and **Double-Wide**, and come in three heights.

CUSTOMIZE WITH ACCESSORIES

ParStor Slides accept several **Accessories** that can be extended 100% for full access to stored supplies and adjusted without tools. **Chrome Plated Waterfall Edge Shelves**, **Wire Baskets**, and **Tubs** give you the flexibility to customize as needed.

LOGIQUIP® KANBAN SYSTEM

With healthcare costs increasing dramatically, eliminating waste from your facility's supply chain has never been more important. LogiQuip's storage solution products and services including our **Patented Kanban Dividers** and **Intelli-Flip® System** leverage Lean principles including **Kanban Triggers** to take inventory management to a system-driven solution that helps to streamline processes and reduce supply chain costs allowing caregivers to focus on quality patient care.

ON-SITE ANALYSIS

A LogiQuip Sales Representative will partner with you to do an **On-Site Analysis** to better understand your needs and goals. Our unique storage products combined with this expert **On-Site Analysis** and **CAD Design Services** can nearly double storage capacity or significantly reduce the storage footprint for similar inventory items.

WORK FLOW MAPPING & OPTIMIZATION

During your **On-Site Analysis**, your Sales Representative will **Map** your current processes and origination structure to identify and eliminate waste to optimize your work flow. In addition, LogiQuip's **CAD Design Process** can assist with visualization of current and ideal state of PAR locations throughout your facility.

LEAN & CLEAN INVENTORY STORAGE

LogiQuip **Wire Mesh Baskets**, **ParWall® Systems**, and **LQS Wire Shelving** eliminate dirt and debris entrapment to help with infection control.

KANBAN & INTELLI-FLIP®

Implementing **Lean** inventory pull management with **Kanban Triggers** can solve many common supply problems: hoarding, stock outs, product expiration, emergency orders, too frequent replenishment, excessive PAR levels, unorganized supply storage and clinician supply chain involvement.

LogiQuip has developed several accessories for our product lines including our **Kanban Dividers** and **Intelli-Flip System** that help ensure supplies are available when and where they are needed to enable smooth, efficient workflows.

LOGIQUIP® INTELLI-FLIP® SYSTEM

LogiQuip's patented **Intelli-Flip System** is a simple, intuitive tool that automates inventory management, **saving up to 50 minutes per PAR location per day***. This helps to ensure you have the supplies you need when you need them. **NO SCANNING. NO WEIGHT CALIBRATION. NO WIRES TO WORK AROUND.**

SIMPLE & RESPONSIVE

An **Intelli-Flip Monitor** is attached to each **Kanban Flipper**. When the caregiver accesses the supplies in the second bin, by lowering the **Flipper**, a signal is sent to the **Portal** that inventory needs to be replenished. **NO SCANNING REQUIRED.**

INTELLI-FLIP PORTAL

Track inventory, velocity trends, days on hand, stock levels, and system status updates on **Monitor** function through a secure **Portal** on Intelli-Flip.net. **NO NEED TO GO TO THE PAR LOCATION.**

ERP INTEGRATION

Easily create orders with **ERP Integration**. **Intelli-Flip** can be integrated into your **ERP System** to automate ordering, reducing stock-outs and expired products.

INTELLI-FLIP™ CONNECT

Intelli-Flip Connect is an exclusive feature that allows the system to move to a cellular connection if the Wi-Fi signal is lost. This helps to ensure you never lose information.

IMPLEMENTATION

LogiQuip has teams of experienced professionals that will install and set up the system and train your staff for you.

*Assumes 272 SKUs per PAR location with an average time savings of 11 seconds per SKU based on a case study done with Intelli-Flip.

LOGIQUIP® DRI-STOR DRYING CABINETS

The cost of infection from improperly cleaned and stored endoscopes can be significant. For this reason, LogiQuip developed the **Dri-Stor Line of Scope and Probe Drying Cabinets**. These **AORN** and **SGNA Guideline Compliant Endoscope Cabinets** start with **304 Grade Stainless Steel** for easy-to-clean durability. **HEPA Filtered Air** circulates through each **Endoscope** and **Cabinet** to aid in complete drying inside and out. Add **EndoTrack** to control scope access and hang time to help ensure compliance.

304 STAINLESS STEEL CONSTRUCTION

All cabinets start with **304 Stainless Steel** body and **Removable Drip Tray** for easy cleanability, long-lasting durability, and better prevention of microbial growth. **All-welded Joints** and **Construction** free of fasteners, screws, and rivets provide smooth surfaces throughout.

HOLDS UP TO 20 SCOPES

Each **Cabinet** can hold up to 20 **Scopes** and can accommodate **Large and Small Diameter Scopes** as well as **TEE Probes** and **Ultrasound Probes**.

HEPA FILTERED AIR

Our **HEPA Power Vent** and **HEPA Power Vent with Channel Purge** models use **HEPA Filters** that remove **99.97% of particulates 0.3 micron** in size to ensure that the air moving through the **Cabinet** and each **Scope** is clean.

COATED SCOPE HANGERS

Durable, easy-to-clean **Scope Hangers** provide cushioned storage which allows you to hang **Scopes** vertically to help promote drying. Free of sharp edges, each **Scope Hanger** is built with a steel core and coated in resilient, non-porous plastic.

LOGIQUIP® DRI-STOR DRYING CABINETS

CHANNEL PURGE OPTIONS

HEPA Power Vent with Channel Purge technology aids in drying inside and out, in accordance with AAMI and ANSI guidelines. Forced filtered air passes through **Tubing Channels** assigned to individual **Scopes** for 30-minute cycles. Airflow is discontinued for 20 minutes before a new cycle begins. The filtered air quality is 0.3 micron at 99.97% efficiency. **Cabinets** designed for 11 or more **Endoscopes** are equipped with two (2) **Channel Purge Pumps**.

ENDOTRACK SYSTEM

EndoTrack allows you to easily manage and track **Endoscope** equipment from an intuitive interface. Utilizing **Dual Scanner Technology**, the **EndoTrack System** provides controlled access and security to your **Cabinet** as well as the ability to track the hang time of each **Scope**.

SIDE COMPARTMENT ACCESS

In addition to our **Top Compartment Access** models, we also have **Side Compartment Access** models for quick access to interior components for maintenance and expansion.

MAINTENANCE PLANS

We are pleased to offer **Maintenance Plans** to keep your new LogiQuip **Dri-Stor Drying Cabinet** running like new. Ask your **Customer Representative** about pricing for the **2- and 4-Year Maintenance Plans**.

- Battery Replacement

LOGIQUIP® LOGICELL® CARTS

LogiCell System Storage Carts provide efficient enclosed storage to address safety and infection control concerns. The durable, versatile, and functional **LogiCell Carts** provide a unique **Cell Panel** along the inside walls of our **Carts** and that significantly increase storage capacity. **LogiCell Panels** are now available with integrated **LED Lighting** (model shown below), delivering the flexibility you expect from **LogiCell**—plus improved visibility throughout the entire **Painted Steel Cabinet**. With a variety of sizes, security options, and accessories, **LogiCell** is fully modular and can adapt to your needs as supplies, quantities, and processes change.

ADDITIONAL ACCESSORIES NOT SHOWN IN IMAGE

LOGICELL CELL PANEL

LogiCell's unique **Cell Panel** design allows **Tubs**, **Wire Baskets**, and **Shelves** to be placed straight in or at an angle making the **LogiCell System** incredibly efficient. In addition, **Tubs**, **Wire Baskets**, and **Shelves** can be extended 80% for maximum visibility of supplies.

DOOR OPTIONS

LogiCell Carts and **Cabinets** are available with **Tambour** or **Hinged Doors**. **Tambour Doors** roll into a cassette helping to keep the door clean. Our **Hinged Doors** are constructed with an aluminum frame and tempered glass insert, providing visibility to the supplies inside.

CABINET OPTIONS

LogiCell Cabinets are available in **Painted Steel**, **Lighted Painted Steel** or **Stainless Steel**.

LOGICELL ACCESSORY KITS

LogiCell Accessory Kits with a mix of **Wire Baskets**, **Clear Tubs**, **Metal Shelves**, and **Catheter Slides** are available to easily customize your **LogiCell Cart**. If none of these pre-configured kits meet your needs, you can customize your cart with a mix of **Wire Baskets**, **Tubs**, **Shelves**, **Catheter Slides**, and **Locking Drawers**.

SECURITY OPTIONS

LogiCell Carts and **Cabinets** are available with a **Key Lock** or **eLock (Electronic Keyless Lock)** for controlled access supplies. **RFID** access is also available for hands-free access (custom orders).

LOGIQUIP® PHARMACY CARTS & WORK TABLES

LogiQuip® offers several **Pharmacy Carts** and **Work Tables** ideal for use in sterile mix areas. **USP <797>** and **USP <800>** **Compliant Pharmacy Carts** and **Work Tables** are non-permeable, non-shedding, and easy to clean. These **304 Stainless Steel** products are resistant to corrosion due to the use of disinfecting cleaners; allowing you to clean multiple times a day without damage*.

USP <797>/USP <800> COMPLIANT

USP <797> are standards developed for the preparation of compounded sterile medications to help reduce potential contamination, infection, or incorrect dosing.

USP <800> outlines requirements and responsibilities for personnel handling hazardous drugs to help minimize the risk of exposure of healthcare personnel, patients, and the environment.

304 STAINLESS STEEL

Pharmacy Carts and **Work Tables** are constructed from medical grade **Stainless Steel** making them durable and easy to clean. All welded construction creates seamless connection points that minimize cracks and crevices where germs can hide.

PHARMACY STORAGE CART KITS

- LogiQuip® **Pharmacy Storage Carts** are available in two heights (34.5" and 59.5") with a variety of pre-set configurations that include **Baskets** and **Short and Long Dividers**.
- All **Storage Carts** come standard with four (4) washable casters; two (2) swivel and two (2) brake.

PHARMACY WORK TABLES

- Our "U" frame **Work Tables** with all-welded, **304 Stainless Steel** construction are the ideal work space to maximize space efficiency.
- LogiQuip® **Pharmacy Work Tables** are designed to accept **Short Pharmacy Carts** underneath the top.
- Work Tables** are all 30" deep and available in three (3) lengths; 32", 60" and 78".

LOGIQUIP® HEIGHT-ADJUSTABLE WORKSTATIONS

Our exclusive line of **Height-Adjustable Workstations** are available with an **Electric** height adjustment mechanism giving you an efficient and ergonomic workspace. The **Electric** powered unit has a maximum weight load of 400 pounds. With **304 Stainless Steel** tabletops and rear uprights, our **Workstations** allow for the use of a wide range of accessories, including **ParWall™ Baskets** and **Shelves**.

HEIGHT-ADJUSTABLE WORKSTATION

LogiQuip offers **Electric Height-Adjustable Workstations** that adjust from 34" to 52". This ergonomic option provides a comfortable and efficient workspace.

ACCESSORIES

LogiQuip **Workstations** offer a wide range of accessories, including **Hanging Drawers**, **LED Lighting**, **ParWall Fine Mesh Baskets**, and **Shelves**.

304 STAINLESS STEEL TABLETOPS

Workstation tops are constructed from **304 Stainless Steel**. This strong and durable surface is corrosion resistant and is easy to clean.

ELECTRIC WORKSTATIONS

- Height range from 34" to 52.5"
- Available in 48", 60", and 72" wide
- Four (4) 5" Locking Brake Casters
- Max weight of 400 pounds
- Patented **Electric Height-Adjustable** system (18" vertical adjustment; 1/5" per second)
- Drive system to UL962, CSA 22.2#68

LOGIQUIP® STAINLESS STEEL WARMING CABINETS

Patient comfort and wellbeing is at the center of the LogiQuip's **W-Series Data Logging Blanket and Fluid Warming Cabinet**. These spacious, easy to use **Warming Cabinets** allow for temperature controlled storage of blankets and irrigation fluids. Our most user friendly temperature recording **Warmer**, a simple data download requires no additional software to get started.

STANDARD FEATURES

- “Easy Log” Integrated Data Logger with Removable USB
- Automatically Records Data Every 30 Minutes
- Internal Storage Up to Two (2) Years
- Displays Actual Temperature and Set Points at all Times
- Independent Digitally Controlled Heating Chambers
- Keyed Door Lock for Single and Upper Chamber Units
- Keyed Temperature Lock Out
- Push Button Digital Operation

- 18 Gauge Adjustable Stainless Steel Shelves; weight max 100 lbs.
- Drawer Slides with Steel Ball Bearings; weight max 100 lbs. per pair

LOGIQUIP® STAINLESS STEEL CASE CARTS

Designed specifically to protect sterile supplies as they move from central processing to surgical suites, LogiQuip **Case Carts** provide a safe, durable, and efficient means of transportation. All **Stainless Steel Bolted** and **Over-the-Road Case Carts** have a full wrap-around **Bumper**, 6" **Casters** for easy maneuverability, and accept height adjustable **Shelving** (Shelves not included).

Bolted Case Carts

Over-the-Road Case Cart*

STAINLESS STEEL CONSTRUCTION

An easy-to-clean, corrosion-resistant Stainless Steel body on all **Closed** and **Over-the-Road Case Carts** provides strength and durability in the harshest environment.

6-INCH CASTERS

These durable **Casters** can withstand high temperatures and high pressure when going through an automated washer. Sealed ball bearings allow these **Casters** to quietly move through your facility.

ACCESSORIES & COMPONENTS

With a variety of bolt-on accessories and components including **Card Holders**, **Clean/Dirty Indicator**, **Handles**, and **Bumpers**, you can customize these **Case Carts** to help streamline processes.

FULLY SERVICEABLE CONSTRUCTION

Case Carts are abused daily, which can lead to damage. With **Bolted** (vs. welded) **Construction**, LogiQuip **Case Carts** are easily serviced to reduce downtime and extend the life of your **Case Carts**.

* All Over-The-Road Case Carts are available as a Custom Build.

Case Cart Efficiency Keeps Costs Down

LOGIQUIP® STAINLESS STEEL DECONTAMINATION SINKS

LogiQuip® **Decontamination Sinks** are designed to thoroughly clean surgical instruments and help streamline your Sterile Processing Department's workflow. All LogiQuip **Decontamination Sinks** start with **304 Series Stainless Steel**, fully welded construction for a durable, easy-to-clean* workspace. Available in various configurations, including three **Electronic Height Adjustable** options, LogiQuip's line of **Decontamination Sinks** has the right, ergonomic solution for any SPD/CSSD. Custom **Decontamination Sinks** are also available.

MODEL #
LQDSF3012037

HEIGHT ADJUSTABLE

Easily raise and lower with the push of a button. Our **Electronic Height Adjustable Decontamination Sink** adjusts from 35" to 42" high, providing an ergonomic workspace for any user. **Fixed Height** options are also available.

304 SERIES STAINLESS STEEL

LogiQuip **Decontamination Sinks** are **304 Series Stainless Steel** making them durable, easy-to-clean* and corrosion-resistant. All welded construction creates virtually seamless connection points that minimize cracks and crevices where germs can hide.

OPTIONAL ACCESSORIES

Several additional options such as **Back Splashes**, **Eye Wash**, **Overhead LED Lighting** and **Sonic** are available to customize your **Decontamination Sink** to your specific needs.

AIR AND WATER GUN KITS

Each **Decontamination Sink** comes standard with an **Air Gun Kit** and a **Water Gun Kit**. The **Air Gun Kit** with five (5) tips aid in suction and drying. The **Water Gun Kit** with eight (8) tips helps to ensure thorough, quick, and easy cleaning.

24-INCH & 30-INCH BASINS

LogiQuip **Decontamination Sinks** come standard with 24" wide **Basins** in **Single**, **Double**, or **Triple Basin** configurations. Each **Basin** has **Etched Gallon Marks** to help ensure precise chemical dilution to safe and effective cleaning. 30" wide **Basins** are also available as an option.

*See the LogiQuip Cleaning Guide for cleaning instructions.

LOGIQUIP® STAINLESS STEEL SCRUB SINKS

Scrub Sinks are essential to any OR and help to ensure patient safety. LogiQuip's entire line of **304 Stainless Steel Surgical Scrub Sinks** are hands-free scrub stations that are **Knee** and/or **Infrared** operated to minimize cross contamination. With standard features such as **Deep Sloping Basins**, **Adjustable Thermostatic Controlled Pressure Regulating Mixing Valve** and **Flow Control Valves**, and optional features such as **Foot Operated Water and Soap**, **Digital Scrub Timer**, and **Eye Wash**, our **Scrub Sinks** can be built out to specification.

MODEL # SS96

KNEE OPERATED SCRUB SINKS

The operation of these **Surgical Sinks** is simple. Press the **Knee Panel** one time to activate water flow. Press again to stop flow. The **Soap Panel** works in a pumping fashion with soap being dispensed through a **Stainless Steel Spout** located near the **Mixing Valve**. The **Sink Base** has been designed to accommodate a gallon sized soap container storage behind the **Knee Panels**.

304 STAINLESS STEEL*

LogiQuip **Scrub Sinks** are **304 Stainless Steel** making them durable, easy-to-clean, and corrosion-resistant.

*See the LogiQuip Cleaning Guide for cleaning instructions.

OPTIONAL ACCESSORIES

Several additional options such as **Foot Operated Water and Soap**, **Eye Wash**, **Digital Scrub Timer**, and **In-Wall Chair Carrier** are available to customize your **Scrub Sink** to your specific needs

INFRARED OPERATED SCRUB SINKS

The **Infrared Sensor** is located on the front of each station and is activated by the user's waist. There is a 2-second on/off delay for water flow. The **Sensor Range** is 12"-14". Both features combined eliminate activation by simply passing by. **Optional Knee Operated or Foot Control Soap Pumps** are available.

LOGIQUIP® COMPLEMENTARY PRODUCTS

LogiQuip has a wide variety of **Essential (Complementary) Products** that can be used across your facility. **Stainless Steel** products ranging from **Kick Buckets** and **IV Stands** to **Linen Hampers**, and **Cylinder Carriers** are designed with the quality you expect from LogiQuip.

STAINLESS STEEL PRODUCTS

Many of our Complementary Products are manufactured with Stainless Steel. These easy-to-clean, corrosion-resistant products provide strength and durability in the harshest environment.

IV POLES

LogiQuip's **Stainless Steel Adjustable IV Poles** are available with **Weighted Base**, **Compact Base**, and **Essential Model** options. All **IV Poles** include a **4-Hook Top**, and **3-inch Casters** that provide stability and allow patients to easily move without interruption to intravenous therapies.

INSTRUMENT TABLES

With a wide variety of applications, LogiQuip's line of **Stainless Steel Instrument Tables** are available in a variety of sizes with a **Bottom Shelf** or **H-Brace** and **3-inch Neoprene Casters**.

MAYO STANDS

Keep surgical instruments and materials within reach during surgical procedures with LogiQuip **Mayo Stands**. This stand comes in **Single** or **Double Post Support**, is **Foot Operated**, has two (2) **Casters** with **Friction Lock**. With a removable instrument tray on a movable stand, these all-welded, **Stainless Steel Mayo Stands** are an essential tool in your OR.
