

**LogiQuip® Awarded Contract for Storage and Shelving by ampiezza,
Vizient-Supported Aggregation Group**

August 11, 2026, Galesburg, MI – ampiezza (ahm-P'YET-sah), a Vizient-supported healthcare aggregation group formerly known as Southern Strategic Sourcing Partners (S3P), has signed a contract with LogiQuip, LLC for storage and shelving.

ampiezza unites more than 90 health systems – representing over 190 unique facilities – acting as a single sourcing entity. The group drives billions of dollars in aggregated purchasing volume annually across categories including physician preference items, medical-surgical supplies, pharmacy, and indirect spend. ampiezza member facilities span 19 states across the South and beyond.

"At LogiQuip, we measure success by whether clinicians feel real, positive impact of our work every single day. Working with ampiezza lets us bring our storage and shelving solutions to an even broader range of healthcare facilities – and this opportunity didn't happen overnight. It's the result of years spent showing up for our customers, solving real problems, and earning trust one relationship at a time. That reputation is precisely why ampiezza chose us as their preferred storage and shelving partner."

— AJ Willit, President, CEO, and Owner, LogiQuip

About LogiQuip

Healthcare exclusive since 1992, LogiQuip helps organizations take control of their supply chain through smarter inventory management solutions. We partner with healthcare professionals to design and implement the right storage solutions for their unique needs, combining purpose-built equipment, proven inventory management strategies, and turnkey implementation services. By eliminating operational inefficiencies and helping to ensure the right supplies are on hand when needed, LogiQuip gives healthcare teams the time and resources to focus on what matters most: patient care.
